

Bangladesh Faculty Training Workshop Feedback -2018

The responses to the quantitative survey questions can be found in the bar graph below. The responses can also be visualized in the succeeding table. The majority of the questions regarding the workshops and logistics were either “very satisfied” or “satisfied”.

The participants also provided useful feedback and comments on the workshop itself. A few suggested a “dissertation to publication” component be included in the workshop, as well as a workshop on how to write an effective conclusion. One suggested we bring an editor of a prominent journal to speak about their expectations.

All of the participants said that they would recommend the workshop to their colleagues. One participant said, “It really motivated me to write and publish...the discussion for my paper was fabulous. So glad for this introduction!” Another one commented, “I would because the sessions are informative and very helpful for young researchers. The symposium on the last day was excellent.” Another participant said, “Yes! I will definitely recommend this workshop to my colleagues. I think this is a very useful workshop for academics.”
